

The Public School Vicenta Ruso of Gran Alacant is a realization

The C.E.I.P. No.2 of Gran Alacant will soon be realized

These are the two possible situations for the new school. The technical team of the Education Council is studying the characteristics of both plots to decide on which one they will build on.

The Sports Complex José Antonio Alemañ of Gran Alacant

Loreto Cascales Martínez - Councillor for Gran Alacant

The final adaptation of the sports complex of Gran Alacant will be a most important building and much requested by all in this zone of Santa Pola. Although this project came at a high price (1.247.312,68 €, approximately two hundred million of the old pesetas) we worked to convert this into a reality.

This project has been brought forward thanks to the hard work of the governing team of The Party Popular and our mayor, Miguel Zaragoza, who decided on this investment, although this money could have been spent on another project of our municipal he decided that once again it should stay in Gran Alacant. I am sure this situation would be completely different if the PSOE were governing. Like it had been shown during the history of our municipal the PSOE would have left the inhabitants of Gran Alacant without a sports centre. It is important to remember that during four long years the governing socialists amongst them Mrs. Lafuente, left a half built uncovered sport centre in Gran Alacant leaving the inhabitants of this zone a public infrastructure which they could not enjoy.

(This was the general way the socialist governed in Gran Alacant while they were in power). Our mayor Miguel, had to come along and in our first term put an end to the socialist who did not want to do anything for the people of this zone of Santa Pola. During their years of governing they never made one investment in the buildings and public services in Gran Alacant. The massive construction of homes, narrow pavements with lamp-post in the middle, inadequate infrastructure and chaotic urbanization were the only things left after their long history here. It is true to say that time puts everyone in their place, and

now with our hands full of realized projects and with the truth before us in our second term, the Popular Party is the one to bring to your disposition this much requested and necessary Sports Complex.

In the first phase of the project we were able completely close the Sports Complex with seating and also include an area to store materials which was not there before. In the second phase of the work two courts for paddle, two courts for tennis, one court for football, another sports court and the courts for petanca. Besides the dressing rooms will be remodelled, and new boilers put in place, fence the perimeter, enlarge the parking zone, a poster with name and some zones of garden in the interior of the enclosure.

This way and during these two consecutive parts we have been able to construct a Sports Complex adequate in dimension and services for the inhabitants of Gran Alacant in which they will be able to carryout their sports activities throughout the year in an installation comfortable and modern following the aims of the governing team of the Popular Party to make Gran Alacant a zone advanced, modern and up to date.

The good news is that these magnificent installations are now at last completed and will be ready this Spring for you all to enjoy.

We can make mistakes, of course, but only if those who carry out the work make them. If we make mistakes please accept our apologies we will rectify them and carry on fighting to make it even better for our citizens and we can assure you that this municipal sports complex will help to contribute a good way to finish what we have set out to make a reality.

WHO HAS DONE THE MOST FOR YOU?????

All the services and infrastructures that today we are able to enjoy in Gran Alacant has been made possible since our Mayor Miguel Zaragoza governed the Council. Here are a small example of photographs

Clot of Galvany

Arrange roundabout

Asphalt and widen pavements

C.E.I.P. Vicenta Ruso

New viewpoints

Municipal parks

Municipal building,
library, medical centre

..... AND A LOT MORE
(you know better than anyone what we have done in Gran Alacant)
Remember it is you that decides who will govern from the 22nd May.
You decide the future of your town.
